RESEARCH INTERESTS

- Observational Cosmology, with focus on late-time probes such as cosmic shear tomography and galaxy clustering.
- Astrostatistics, machine learning methods, and their application in an astronomical context and beyond, Bayesian statistics.
- Optimising cosmological parameter estimation from weak lensing tomography through mitigation of systematic effects.
- Data intensive astronomy, and exploration of optimal methods/algorithms/approaches for analysis of current and future legacy surveys.
- Developing novel algorithms for statistical inference of large datasets, with particular focus on machine learning.
- Developing algorithms for optimised photometric redshift estimation and calibration for cosmic shear tomography.
- Photometric methods and optimisation of imaging analysis in large imaging surveys, ongoing and upcoming.
- Development and application of modern image reduction methods for wide-field imaging surveys, ongoing and upcoming.
- Development and application of algorithms for measurement of multi-wavelength photometry of extragalactic sources, and the measurement of galaxy spectral energy distributions (SEDs).
- Studying the build-up of mass (baryonic and dark) in the universe and the evolution of mass functions (stellar, gas, and baryonic) over cosmic timescales.
- Blind HI studies of the local and high redshift universe.

- High-resolution Quasar Spectroscopy and the detection of high-redshift metalicities and isotropic abundances.
- Examination of variation in the fine structure constant α through analysis of quasar absorption systems.

Education

University of Western Australia, WA, Australia

PhD, Astrophysics (Graduated Dec 2017)

- Thesis Title: Using Panchromatic Photometry and HI Surveys to constrain the Galactic Baryonic Mass Function
- Thesis Topic: Deriving an empirical measurement of the galactic baryonic mass function using the unique GAMA dataset, by first optimising photometric estimation, HI flux extraction, and measuring the low-redshift stellar and HI mass functions.
- Supervisors:
  Professor Simon P. Driver
  Assoc. Prof. Aaron S.G. Robotham
  Assoc. Prof. Martin Meyer
- Area of Study: Extra-Galactic Astronomy, Photometric Methods, Astrostatistics

University of NSW, NSW, Australia

MPhil, Astrophysics (Graduated Mar 2013)

- Thesis Title: Empirical Analysis of Magnesium Isotopic Abundances through Quasar Spectroscopy
- Thesis Topic: Using high-resolution quasar spectroscopy to estimate the impact of detectable Magnesium isotopic abundances on analyses of variation in the fine structure constant α.
- Supervisor: Professor John Webb
- Area of Study: Extra-Galactic Astronomy, Quasar Spectroscopy, Cosmology

BSci, Physics (Graduated Mar 2011)

- Included award of B.L. Turtle Memorial Prize for Astrophysics (2011)
- Included Senior Thesis project
- Thesis Title: Optimal Quasar Selection for studies of Variation in the Fine Structure Constant α
- Thesis Topic: Identification and selection of optimal quasar candidates for spectroscopic follow-up in studies of variation in the fine structure constant α.
- Supervisor: Professor John Webb
- Area of Study: Extra-Galactic Astronomy, Cosmology

Professional Experience

German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Bochum, Germany
Junior Research Group Leader, 4 years funding (June 2023 to Dec 2027)

German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Bochum, Germany
Junior Research Group Leader & Research Fellow, 2 years funding (July 2021 to May 2023)

German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Bochum, Germany
Research Fellow, 3 years funding (June 2018 to July 2021)

Rheinische Friedrich-Wilhelms-Universität Bonn, Bonn, Germany
Post-Doctoral Researcher, 3 years funding (Oct 2016 to Oct 2019)

University of Western Australia, Perth, Australia
APA and UWA funded PhD Student, 3 years funding (Mar 2013 to Mar 2016)

University of NSW, Sydney, Australia
Lab Demonstrator-in-Charge (Feb 2011 to Dec 2012)

University of NSW, Sydney, Australia
Lab Demonstrator (Feb 2010 to Feb 2011)

Academic Experience

Grants **2013 to Present**

- DLR PDIR Grant "Kalibration der photometrischen Rotverschiebungen fr die Euclid-Mission" (Co-PI: EUR 438 403; 2023-2027)
- DFG Collaborative Research Centre 1491: "Cosmic Interacting Matters" (PI Project F6: EUR 427 400; 2021-2027)
- Graduate Research School Local Travel Award (AUD $750; 2015)
- Graduate Research School Overseas Travel Award (AUD $1 850; 2015)
- University of Western Australia Establishment Award (AUD $2 000; 2013)
- University of Western Australia Safety-Net Top-Up Scholarship (AUD $12 250; 2013)
- Australian Postgraduate Award (AUD $86 286; 2013)

Collaborations: Project Leader **2015 to Present**

- Euclid Collaboration Nz Calibration Task Force (Lead; 2025 to Present)
- KiDS-Legacy Cosmology Working Group (Lead; 2023 to 2025)
- CRC1491: Project F6 "Dust and Dark Matter in Galaxies) (PI; 2022 to Present)
- KiDS Redshift Calibration Working Group (co-Lead; 2019 to 2025)
- KiDS Data Release 5 Project (Lead; 2018 to 2024)
- KiDS-VIKING Photometry Working Group (Lead; 2016 to 2023)
- GAMA–KiDS-VIKING Photometry Working Group (Lead; 2015 to 2018)

Collaborations: Project Member **2013 to Present**

- Euclid Collaboration Nz Calibration Task Force (zTF, Lead: 2025 to Present)
- Euclid Collaboration Shear Calibration Task Force (SHECAL: 2023 to Present)
- Euclid Collaboration Organisational Unit Shear Measurement (OU-SHE: 2023 to Present)
- DFG CRC 1491: Cosmic Interacting Matters (2022 to Present)
- Euclid Collaboration Visual Mask (Photometric) Tiger Team (VMPZ-ID-TT: 2021 to 2024)
- Euclid Collaboration Nz Calibration Task Force (zTF: 2021 to 2025)
- Euclid Collaboration Weak Lensing Science Working Group (WL-SWG: 2021 to Present)
- PAU Survey Science Collaboration (2020 to Present)
- Euclid Collaboration Organisational Unit Photometric Redshifts (OU-PHZ: 2019 to Present)
- Dark Energy Science Collaboration Weak Lensing Work Package (Provisional Member; 2019 to 2023)
- Dark Energy Science Collaboration PZ Work Package (Provisional Member; 2019 to 2023)
- LSST Dark Energy Science Collaboration (DESC; Provisional Member; 2019 to 2023)
- Rubin Observatory Legacy Survey of Space and Time (LSST; Provisional Member; 2019 to 2023)
- Euclid Collaboration (2016 to Present)
- KiDS Consortium Member (2015 to Present)
- GAMA–WISE Matching Group (2014 to 2015)

- GAMA–H-ATLAS Matching Group (2014 to 2015)
- ALFALFA–GAMA Collaboration (2013 to 2015)
- GAMA Team Member (2013 to Present)

Scientific Organising Committee **2015 to Present**
- 'KiDS Collaboration Meeting', Bochum, Germany (Sept 2023; Chair)
- 'Consensus Cosmic Shear in the 2020s', Busan, South Korea (IAU General Assembly Focus Meeting, 2022; co-Chair)
- 'KiDS Collaboration Meeting', Warsaw, Poland (May 2022; co-Chair)
- 'KiDS Collaboration Meeting', Virtual (June 2021; Chair)
- 'KiDS Collaboration Meeting', Virtual (Nov 2020; Chair)
- 'KiDS Collaboration Meeting', Virtual (May 2020; Chair)
- 'KiDS Collaboration Meeting', Bochum, Germany (Sept 2019; Co-Chair)
- 'Harley Wood School for Astronomy', Perth, Australia (2015; Chair)

Astronomical Society Committee **2015 to 2016**
- Early Career Researcher Chapter Steering Committee, Astronomical Society of Australia, Australia (2015-2016; Postgraduate Representative)

Journal Referee **2016 to Present**
- Open Journal of Astrophysics (*OJA*, 2025 to present)
- The Astrophysical Journal (*ApJ*, 2024 to present)
- Astronomy and Astrophysics (*A&A*, 2018 to present)
- Monthly Notices of the Royal Astronomical Society (MNRAS, 2016 to present)

Lecturer **2011 to Present**
- Lecturer for Statistics for Physicists and Astronomers (AIRUB, Bochum, 2021 to Presetn)
- Lecturer for Cosmology (AIRUB, Bochum, 2023 to present)
- Lecturer for Observational Cosmology and Astronomy at MINT Summer School, Dr. Hans Riegel-Stiftung (RUB, Bochum, 2023)
- Lecturer for Astrostatistics at Graduate School on Plasma and Particle Physics (Bad Honef, 2023)
- Lecturer for Observational Cosmology and Astronomy at MINT Summer School, Dr. Hans Riegel-Stiftung (RUB, Bochum, 2022)
- Ringvorlesung Lecturer for AstroStatistics (TU-Dortmund, Dortmund, 2021)
- Contributing Lecturer for Cosmology on thermal history and galaxy evolution (AIRUB, Bochum, 2019 to 2022)
- Contributing Lecturer for Lehrerfortbildung Astronomie (teacher development) on multi-wavelength astronomy (AIfA, Bonn, 2018)
- Contributing Lecturer for Optical Observations on NIR astronomy (AIfA, Bonn, 2017 to 2019)
- Lecturer for HSC Physics, Matrix Education (Sydney, 2011 to 2012)

Tutor **2010 to 2016**
- Bayesian statistics and astrostatistics problems class tutor (ICRAR, UWA, 2014 to 2015)
- First year lab coordinator as Demonstrator-in-Charge (UNSW, 2011 to 2012)
- Tutor in first year astronomy (UNSW, 2011 to 2012)
- Tutor in general education astronomy (UNSW, 2010 to 2012)
- First year lab demonstration (UNSW, 2010 to 2012)
- Coach and Adjudicator for NSW GPS and AHGSS Debating (Sydney, 2010 to 2012)
- Tutor for HSC Mathematics, Physics, Chemistry at St Joseph's College (Sydney, 2010 to 2012)

Project Supervisor: PhD **2020 to Present**

- Eray Genc, "Exploring dust transport in dark matter halos of galaxies with weak-lensing surveys", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2022-2025)
- Anna Wittje, "Measuring weak gravitational lensing using accurate photometric redshifts and realistic simulations", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2021-2026)
- Jan Luca van den Busch, "Survey Inhomogeneities and Sample Variance in Cosmic Shear Experiments", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2020-2021)

Project Supervisor: Masters **2019 to Present**

- Patrick Kleu, "Hunting for solar system objects in KiDS/VIKING imaging using data science methods", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2024-2025)
- Joseph Dennis, "Analysis of Systematic Effects of Galactic Extinction in the Kilo Degree Survey", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2024-2025)
- Leon Gawytta, "Exploring the Lyman-break Galaxy population at $z = 3$ with KiDS", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2023-2025)
- William Roster, "Validating redshift calibration methods for *Euclid* using Flagship2 simulations", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2021-2022)
- Nicola Hunfeld, "Mitigating systematic biases in stacked weak-lensing analyses of clusters using CLMM", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2021-2022)
- Anna Wittje, "Improving KiDS-1000 Tomographic Cross-correlation redshift estimates with PAUS", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2020-2021)
- Anna Enders, "Studying Galaxy Evolution with Weak Gravitational Lensing in the Kilo-Degree Survey", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2019-2020)

Project Supervisor: Bachelors **2017 to Present**

- Nena Schröer, "KiDS-Legacy Cosmic Shear with the SP(k) formalism", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (ongoing)
- Niklas Kroschinski, "Improving KiDS-Legacy Photometric Redshift Estimation for Tomographic Weak Lensing", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2021)
- Elena Marci-Boehncke, "Optimising Tomographic Bin Definitions for Cosmic Shear Cosmology with KiDS-Legacy", German Centre for Cosmological Lensing, Ruhr-Universität Bochum, Germany (2021)
- Florian Klienebreil, "Detection of the Cluster Red Sequence using KiDS and VIKING Photometry", Argelander Institut für Astronomie, Universität Bonn, Germany (2017)

Meeting or Conference Organiser **2017 to Present**

- 'Consensus Cosmic Shear in the 2020s', IAU General Assembly Focus Meeting, Busan, Korea (2022)
- KiDS Fall Consortium Meeting, Leiden, Netherlands (2021)
- KiDS Spring Consortium Meeting, Virtual (2021)
- KiDS Fall Consortium Meeting, Virtual (2020)
- KiDS Spring Consortium Meeting, Virtual (2020)
- KiDS Consortium Meeting, Bochum, Germany (2019)
- Euclid Consortium Meeting, Bonn, Germany (2017)

Invited Visitor **2026 to Present**

- Kavli Short-Term Visitor, Kavli Insitute for Cosmology, October 2026

Outreach **2010 to Present**

- Keynote Speaker for Astronomy on Tap Bonn, Bonn, Germany (Jan 2020)
- Keynote Speaker and Organiser for Astronomy on Tap Bonn, Bonn, Germany (April 2019)
- Outreach Presenter and Organiser at Rural Community Astronomy Event, Tom Price, WA, Australia (Aug 2015)
- Keynote Speaker at Residence of Western Australian US Consul General Cynthia Griffen, Perth, WA, Australia (Aug 2014)
- Outreach Presenter in astronomy for ICRAR, Various Locations, WA, Australia (2013 to 2016)
- Outreach Presenter at National Science Week events for UNSW, Various Locations, NSW, Australia (2011 to 2012)
- Lecturer for public classes in Special and General Relativity (UNSW, 2011 to 2012)
- Demonstrator for UNSW Outreach, specialising in Telescopes and Planetarium activities, Various Locations, NSW, Australia (2010 to 2012)

Grader **2005 to 2015**

- Assessment marking for bayesian statistics problem classes (UWA, 2014 to 2015)
- Exam marking for first year astronomy (UNSW, 2011 to 2012)
- Assessment and Exam marking for general education astronomy (UNSW, 2011 to 2012)

Awards

Faculty of Physics, Ruhr-University Bochum

- **Lecturer of the Semester** (Elective module category, Summer Semester 2021)

ICRAR, University of Western Australia

- **Best Student Talk** (ICRARcon, 2013)

Matrix Education

- **Physics Teacher of the Year** (2012)

University of NSW

- **B.L. Turtle Memorial Prize for Astrophysics** (2010)

Additional Training

2014 to Present

- Mental Health First Aid Certification (MHFAA; Standard)
- ALLY: Recipient of ALLY (Australia & New Zealand) training in diversity, equity, and inclusion, specifically regarding working with the LGBTI community
- HLTAID001: Provide Cardiopulmonary Resuscitation
- HLTAID002: Provide Basic Emergency Life Support
- HLTAID003: Provide First Aid

Observing/ Project Experience

VLT / FORS2 (optical) **2013 to 2015**

- 100 hours on FORS2 (1 run, 2026)

AAT (GAMA) / 2dF (optical) **2013 to 2015**

- 5 Nights at AAT (1 run, 2014)

Parkes / (21cm) **2013 to 2015**

- 5 nights performing deep observations of the HI content of the Sculptor Group of galaxies (P837; 1 run, July 2013)
- 13 nights performing observations of the HI content of the GAMA G23, G15, and G12 Fields (P669; 3 runs, 2013 to 2014)

Technical Skills: Computing

Comprehensive understanding of, and proficiency in, the use of a variety of programming languages; in particular **R**, and additionally: Python, bash, Perl, C, Fortran, SQL, ADQL, PHP, and HTML.

Extensive experience with using astronomical software, including but not limited to (alphabetical): Aladdin, BPZ, CIGALE, GAIA, GALFIT, LePhare, MagPhys, Scamp, Source Extractor, SWarp, STILTS, and TOPCAT.

Intimate knowledge of Linux, Macintosh, and Microsoft operating systems, and a large variety of cross platform propriety (Office, IDL) and open source (bash, Gnuplot, git, LaTeX, R, Python) languages and software. Extensive experience in the writing, distribution, and management of astronomical software.

Major Contributed Software

Pipeline Packages (primary author) **2016 to Present**

- `CosmoPipe (v2)`: Flexible cosmology analysis pipeline construction environment
- `PhotoPipe`: KiDS Photometric analysis pipeline
- `CosmoWrapper`: Wrapper to the CosmoPipe pipeline, performing data product generation such as redshift distributions and gold sample selection
- `CosmoPipe (v1)`: KiDS Cosmology analysis pipeline, from data catalogues to cosmology constraints
- `KiDS-VIKING-pipeline`: Reduction and Calibration of VIKING images for KiDS weak-lensing science

R non-CRAN Packages (primary author) **2013 to Present**

- `Kohonen`: Self- and Super-Organising Maps for R
- `LAMBDAR`: Lambda Adaptive Multi-Band Deblending Algorithm for R - advanced photometric deblending routines for PSF mismatched data
- `SOM DIR`: Direct Photometric Redshift Calibration using Self-Organising Maps
- `helpRfuncs`: Helper functions for R pipelines

R CRAN Packages (co-author, alphabetical order) **2014 to Present**

- `astro`: R functions for Astronomical computing

Presentations

Information correct as of Oct 2025

Invited Talks

1. 'KiDS-Legacy Cosmology and Extended Models', Dark Energy Action Symposium, Montpellier, France (Nov 2025)
2. 'KiDS-Legacy Cosmic Shear', CMB-France National Conference, Paris, France (October 2025)
3. 'Lesson for DESC Early Science from KiDS-Legacy', Rubin DESC Collaboration Meeting, USA (July 2025)
4. 'Weak Lensing Cosmic Shear', CosmoVerse, Istanbul, Turkey (June 2025)
5. 'Cosmological Analyses with KiDS Weak Lensing', CIPANP, Wisconsin, USA (June 2025)
6. 'Weak Lensing Cosmic Shear', New Avenues in Particle Cosmology, Winchester, UK (May 2025)
7. 'Cosmological Results from KiDS-Legacy', EuCAPT (April 2025)
8. 'Cosmological Results from KiDS-Legacy', ESLAB Euclid Symposium (March 2025)

9. 'Cosmological Results from KiDS-Legacy', Cosmology Talks (Feb 2025)
10. 'Statistical Challenges in Weak Lensing Cosmology', Seminar, Macquiarie University, Australia (August 2024)
11. 'KiDS-Legacy Cosmic Shear', (April 2024)
12. 'KiDS: Acievements and DR5', A decade of ESO public surveys workshop, ESO, Garching (Oct 2023)
13. 'Science with KiDS-DR5', Royal Observatory, Edinburgh, Scotland (Oct 2023)
14. 'Cosmic Shear with KiDS-Legacy', Cosmology Seminar, ETH Zurich, Switzerland (Feb 2023)
15. 'Machine Learning for Cosmic Shear Tomography', Seminar, Swinburn Center for Astrophysics and Supercomputing, Australia (Nov 2022)
16. 'Probing feedback with the shear-, magnitude-, and colour-position correlation functions', CRC1491 GA, Bochum (June 2022)
17. 'Cosmic Shear Cosmology with KiDS-Legacy', Intruiging Inconsistencies Conference, Sesto, Italy (May 2022)
18. 'Tomographic cosmic shear and the challenges of Stage-IV calibration', Sydney University Institute for Astronomy, Austraila, (Apr 2022)
19. 'Cosmic Shear Cosmology with KiDS-Legacy', Seminar, Laboratoire d'Astrophysique de Marseille, France (Apr 2022)
20. 'Improved Cosmology with SOM Redshift Calibration', Astrophysics Seminar Series, University of Leiden, Leiden, Netherlands [Virtual] (Jan 2021)
21. 'Cosmic Shear in 2020', DIRAC, University of Seattle, Washington, USA [Virtual] (Dec 2020)
22. 'Translating Pixels into Cosmology for KiDS-1000', Institut d'Astrophysique de Paris, Paris, France [Virtual] (Nov 2020)
23. 'Organised Randoms', Dark Energy Science Collaboration Large-Scale Structure Seminar [Virtual] (Sept 2020)
24. 'KiDS-1000 Simulations: Description and Lessons Learnt', Dark Energy Science Collaboration Cosmological Simulations Seminar [Virtual] (Sept 2020)
25. 'KiDS-1000 Redshift Distribution Calibration', Princeton Astronomy Seminar, Princeton, NJ, USA [Virtual] (Aug 2020)
26. 'Photometric Redshift Calibration with Self Organising Maps', Dark Energy Science Collaboration Redshift Calibration Seminar [Virtual] (Mar 2020)
27. 'Photometric Redshift Calibration with Self Organising Maps', DIRAC, University of Seattle, Washington, USA (Mar 2020; cancelled)
28. 'Photometric Redshift Calibration with Self Organising Maps', GCCL Seminar [Virtual] (Mar 2020)
29. 'Cosmological Weak Lensing in 2019', University of Hamburg, Hamburg, Germany (Dec 2019)
30. 'Photometric Redshift Calibration with Self-Organising Maps', LAM, Marseille, France (Sept 2019)

31. 'KiDS+VIKING-450: A novel dataset for cosmology and astrophysics', Ruhr-Universitt Bochum, Bochum, Germany (May 2019)
32. 'KiDS+VIKING Cosmic Shear Cosmology', Univerity of Oxford, Oxford, UK (Nov 2018)
33. 'KiDS+VIKING Cosmic Shear Cosmology', Univerity College London, London, UK (Nov 2018)
34. 'Exploring the Universe: Observational Methods and Facilities', Universitt Bonn, Bonn, Germany (Oct 2018)
35. 'KiDS+VIKING: Technical Challenges of Combining Two ESO Public Surveys', ESO, Garching, Germany (Oct 2018)
36. 'Observational Methods and Facilities', Universitt Bonn, Bonn, Germany (Apr 2018)
37. 'Galaxy Stellar Mass Functions', University of Cardiff, Cardiff, Wales (May 2017)

Contributed Talks

1. Stage-IV Cosmic Shear and the Curse of Covariate Shift, Cosmology from Home, (June 2022)
2. KiDS-DR5 and Legacy Cosmic Shear, Warsaw, (May 2022)
3. Local optimisation of galaxy redshift distributions, KiDS Consortium Meeting, [Virtual] (Sept 2021)
4. KiDS Data Release 5, KiDS Consortium Meeting, [Virtual] (Sept 2021)
5. Faint Sample Correlation Functions, KiDS Consortium Meeting, [Virtual] (Nov 2020)
6. KiDS Data Release 5, KiDS Consortium Meeting, [Virtual] (April 2020)
7. Photometric Redshift Calibration with Self-Organising Maps, Cosmology from Home Conference [Virtual] (Sept 2020)
8. Photometric Redshift Calibration with Self-Organising Maps, Euclid OU-PHZ Workshop, INAF Bologna, Bologna, Italy (Nov 2019)
9. Updated KiDS Photometric Redshift Calibration, KiDS Consortium Meeting, Bochum, Germany (Sept 2019)
10. KiDS Data Release 5, KiDS Consortium Meeting, Bochum, Germany (Sept 2019)
11. SOM Direct Redshift Calibration, KiDS Consortium Meeting, Leiden, Netherlands (Apr 2019)
12. CSSOS-Euclid Photo-z Simulations, ISSI-Bern Workshop on CSS-Euclid, Bern, Switzerland (Dec 2018)
13. Improved Random Catalogue Construction for Photomoetric Clustering, KiDS Consortium Meeting, ESO, Garching, Germany (Oct 2018)
14. KiDS Data Release 5, KiDS Consortium Meeting, Bochum, Germany (Oct 2018)
15. Towards a Baryonic Mass Function using the GAMA $z < 0.06$ sample, KiDS-GAMA-VIKING Workshop, Royal Observatory of Edinburgh, UK (May 2016)
16. FIR Survey Synergies with GAMA, The Cosmic FIR Landscape, University of Lisbon, Portugal (May 2016)

17. Multiwavelength Photometry, SEDs, and the properties of galaxies, Seminar, University of St. Andrews, UK (Sept 2015)
18. MagPhys Analysis of 220,000 galaxies in GAMA, Modeling Galaxies Across Cosmic Times, Kavli Institute for Cosmology, Cambridge, UK (Sept 2015)
19. Multiwavelength Photometry, SEDs, and the properties of galaxies, GAMA Meeting, Heidelberg, Germany (Sept 2015)
20. Multiwavelength SEDs in GAMA, Multiwavelength Dissection of Galaxies, Sydney, Australia (May 2015)
21. Refinement of Multiwavelength Photometry across all wavelengths, GAMA Photometry Workshop, Perth, Australia (Feb 2015)
22. Multiwavelength Photometry and the LAMBDAR code, GAMA Meeting, Cape Town, South Africa (Sept 2014)
23. Multiwavelength Photometry and the LAMBDAR code, GAMA Meeting, Sydney, Australia (March 2014)
24. ALFALFA HI data and combination with GAMA, Seminar, ICRAR/UWA, Perth, Australia (Dec 2013)
25. GAMA and Multiwavelength Analysis of Galaxies, Seminar, Cornell University, Ithaca USA (Oct 2013)
26. Image analysis and quality testing in GAMA, GAMA Busy-Week, Perth, Australia (June 2013)

Publications

Information correct as of 28 May 2026

Online bibliographies:
- ADS/Scix Library (Used for citation statistics below)

Summary Statistics:
- Total publication = 164 [9 as lead author]
- Total citations = 11,350 [1014]
- h-index = 52 [9]
- m-index (h-index / years since PhD = 52/8.5) = 6.11 [1.1]
- i10-index (Publications with more than 10 citations) = 116 [9]
- i100-index (Publications with more than 100 citations) = 35 [5]

Ten Primary Journal Publications (ordered by date)

Key: C = Citations (from NASA Astrophysics Data System)

103. “KiDS-1000 catalogue: Weak gravitational lensing shear measurements”, Giblin, B., Heymans, C., and 21 colleagues, 2021, Astronomy and Astrophysics, 645, A105 (C=189)

104. “KiDS-1000 cosmology: Cosmic shear constraints and comparison between two point statistics”, Asgari, M., Lin, C.-A., and 23 colleagues, 2021, Astronomy and Astrophysics, 645, A104 (C=775)

105. “GAMA + KiDS: empirical correlations between halo mass and other galaxy properties near the knee of the stellar-to-halo mass relation”, Taylor, E.N., Cluver, M.E., and 17 colleagues, 2020, Monthly Notices of the Royal Astronomical Society, 499, 2896 (C=30)

106. “Discovery of Two Einstein Crosses from Massive Post-blue Nugget Galaxies at z ¿ 1 in KiDS”, Napolitano, N.R., Li, R., and 19 colleagues, 2020, The Astrophysical Journal, 904, L31 (C=11)

107. “The intrinsic reddening of the Magellanic Clouds as traced by background galaxies - II. The Small Magellanic Cloud”, Bell, C.P.M., Cioni, M.-R.L., and 24 colleagues, 2020, Monthly Notices of the Royal Astronomical Society, 499, 993 (C=14)

108. “Galaxy and mass assembly: luminosity and stellar mass functions in GAMA groups”, Vzquez-Mata, J.A., Loveday, J., and 15 colleagues, 2020, Monthly Notices of the Royal Astronomical Society, 499, 631 (C=19)

109. “Testing KiDS cross-correlation redshifts with simulations”, van den Busch, J.L., Hildebrandt, H., and 8 colleagues, 2020, Astronomy and Astrophysics, 642, A200 (C=82)

110. “Testing gravity using galaxy-galaxy lensing and clustering amplitudes in KiDS-1000, BOSS, and 2dFLenS”, Blake, C., Amon, A., and 19 colleagues, 2020, Astronomy and Astrophysics, 642, A158 (C=45)

111. “KiDS+GAMA: The weak lensing calibrated stellar-to-halo mass relation of central and satellite galaxies”, Dvornik, A., Hoekstra, H., and 14 colleagues, 2020, Astronomy and Astrophysics, 642, A83 (C=22)

112. “Galaxy And Mass Assembly (GAMA): assimilation of KiDS into the GAMA database”, Bellstedt, S., Driver, S.P., and 10 colleagues, 2020, Monthly Notices of the Royal Astronomical Society, 496, 3235 (C=93)

113. “KiDS+VIKING-450: Improved cosmological parameter constraints from redshift calibration with self-organising maps”, Wright, A.H., Hildebrandt, H., and 5 colleagues, 2020, Astronomy and Astrophysics, 640, L14 (C=81)

114. “KiDS+VIKING+GAMA: Testing semi-analytic models of galaxy evolution with galaxy-galaxy-galaxy lensing”, Linke, L., Simon, P., and 10 colleagues, 2020, Astronomy and Astrophysics, 640, A59 (C=6)

115. “Galaxy and Mass Assembly (GAMA): Demonstrating the Power of WISE in the Study of Galaxy Groups to z ¡ 0.1”, Cluver, M.E., Jarrett, T.H., and 8 colleagues, 2020, The Astrophysical Journal, 898, 20 (C=35)

116. “KiDS+VIKING-450 and DES-Y1 combined: Cosmology with cosmic shear”, Joudaki, S., Hildebrandt, H., and 13 colleagues, 2020, Astronomy and Astrophysics, 638, L1 (C=200)

117. “Photometric redshift calibration with self-organising maps”, Wright, A.H., Hildebrandt, H., and 2 colleagues, 2020, Astronomy and Astrophysics, 637, A100 (C=156)

118. “KiDS+VIKING-450 and DES-Y1 combined: Mitigating baryon feedback uncertainty with COSEBIs”, Asgari, M., Tröster, T., and 13 colleagues, 2020, Astronomy and Astrophysics, 634, A127 (C=128)

119. “Cosmology from large-scale structure. Constraining CDM with BOSS”, Tröster, T., Snchez, A.G., and 10 colleagues, 2020, Astronomy and Astrophysics, 633, L10 (C=161)

120. “A gravitational lensing detection of filamentary structures connecting luminous red galaxies”, Xia, Q., Robertson, N., and 13 colleagues, 2020, Astronomy and Astrophysics, 633, A89 (C=19)

121. “KiDS+VIKING-450: Cosmic shear tomography with optical and infrared data”, Hildebrandt, H., Köhlinger, F., and 26 colleagues, 2020, Astronomy and Astrophysics, 633, A69 (C=390)

122. “KiDS+VIKING-450: A new combined optical and near-infrared dataset for cosmology and astrophysics”, Wright, A.H., Hildebrandt, H., and 23 colleagues, 2019, Astronomy and Astrophysics, 632, A34 (C=114)

123. “The intrinsic reddening of the Magellanic Clouds as traced by background galaxies - I. The bar and outskirts of the Small Magellanic Cloud”, Bell, C.P.M., Cioni, M.-R.L., and 17 colleagues, 2019, Monthly Notices of the Royal Astronomical Society, 489, 3200 (C=14)

124. “The Frequency of Dust Lanes in Edge-on Spiral Galaxies Identified by Galaxy Zoo in KiDS Imaging of GAMA Targets”, Holwerda, B.W., Kelvin, L., and 22 colleagues, 2019, The Astronomical Journal, 158, 103 (C=27)

125. “Luminous red galaxies in the Kilo-Degree Survey: selection with broad-band photometry and weak lensing measurements”, Vakili, M., Bilicki, M., and 7 colleagues, 2019, Monthly Notices of the Royal Astronomical Society, 487, 3715 (C=22)

126. “The fourth data release of the Kilo-Degree Survey: ugri imaging and nine-band optical-IR photometry over 1000 square degrees”, Kuijken, K., Heymans, C., and 21 colleagues, 2019, Astronomy and Astrophysics, 625, A2 (C=364)

127. “LinKS: discovering galaxy-scale strong lenses in the Kilo-Degree Survey using convolutional neural networks”, Petrillo, C.E., Tortora, C., and 18 colleagues, 2019, Monthly Notices of the Royal Astronomical Society, 484, 3879 (C=111)

128. “Towards emulating cosmic shear data: revisiting the calibration of the shear measurements for the Kilo-Degree Survey”, Kannawadi, A., Hoekstra, H., and 10 colleagues, 2019, Astronomy and Astrophysics, 624, A92 (C=106)

129. “KiDS+GAMA: Intrinsic alignment model constraints for current and future weak lensing cosmology”, Johnston, H., Georgiou, C., and 9 colleagues, 2019, Astronomy and Astrophysics, 624, A30 (C=111)

130. “Comparison of the excess mass around CFHTLenS galaxy-pairs to predictions from a semi-analytic model using galaxy-galaxy-galaxy lensing”, Simon, P., Saghiha, H., and 4 colleagues, 2019, Astronomy and Astrophysics, 622, A104 (C=6)

131. “The causes of the red sequence, the blue cloud, the green valley, and the green mountain”, Eales, S.A., Baes, M., and 25 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 481, 1183 (C=45)

132. “GAMA/G10-COSMOS/3D-HST: Evolution of the galaxy stellar mass function over 12.5 Gyr”, Wright, A.H., Driver, S.P., and Robotham, A.S.G., 2018, Monthly Notices of the Royal Astronomical Society, 480, 3491 (C=62)

133. “Galaxy and Mass Assembly (GAMA): The environmental dependence of the galaxy main sequence”, Wang, L., Norberg, P., and 13 colleagues, 2018, Astronomy and Astrophysics, 618, A1 (C=21)

134. “Galaxy And Mass Assembly (GAMA): the signatures of galaxy interactions as viewed from small-scale galaxy clustering”, Gunawardhana, M.L.P., Norberg, P., and 12 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 479, 1433 (C=8)

135. “GAMA/H-ATLAS: the local dust mass function and cosmic density as a function of galaxy type - a benchmark for models of galaxy evolution”, Beeston, R.A., Wright, A.H., and 26 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 479, 1077 (C=47)

136. “Group quenching and galactic conformity at low redshift”, Treyer, M., Kraljic, K., and 14 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 477, 2684 (C=31)

137. “The SAMI Galaxy Survey: spatially resolving the main sequence of star formation”, Medling, A.M., Cortese, L., and 43 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 475, 5194 (C=118)

138. “GAMA/G10-COSMOS/3D-HST: the 0 ¡ z ¡ 5 cosmic star formation history, stellar-mass, and dust-mass densities”, Driver, S.P., Andrews, S.K., and 31 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 475, 2891 (C=214)

139. “Galaxy And Mass Assembly: automatic morphological classification of galaxies using statistical learning”, Sreejith, S., Pereverzyev, S., and 16 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 474, 5232 (C=25)

140. “Galaxy And Mass Assembly: the G02 field, Herschel-ATLAS target selection and data release 3”, Baldry, I.K., Liske, J., and 40 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 474, 3875 (C=247)

141. “KiDS-450: cosmological constraints from weak lensing peak statistics - I. Inference from analytical prediction of high signal-to-noise ratio convergence peaks”, Shan, H., Liu, X., and 20 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 474, 1116 (C=114)

142. “Galaxy evolution in the metric of the cosmic web”, Kraljic, K., Arnouts, S., and 20 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 474, 547 (C=203)

143. “The new galaxy evolution paradigm revealed by the Herschel surveys”, Eales, S., Smith, D., and 23 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 473, 3507 (C=44)

144. “Galaxy and mass assembly (GAMA): the consistency of GAMA and WISE derived mass-to-light ratios”, Kettlety, T., Hesling, J., and 12 colleagues, 2018, Monthly Notices of the Royal Astronomical Society, 473, 776 (C=30)

145. “A deep Parkes H I survey of the Sculptor group and filament: H I mass function and environment”, Westmeier, T., Obreschkow, D., and 9 colleagues, 2017, Monthly Notices of the Royal Astronomical Society, 472, 4832 (C=23)

146. “Galaxy And Mass Assembly: the evolution of the cosmic spectral energy distribution from z = 1 to z = 0”, Andrews, S.K., Driver, S.P., and 16 colleagues, 2017, Monthly Notices of the Royal Astronomical Society, 470, 1342 (C=20)

147. “Galaxy And Mass Assembly (GAMA): the galaxy stellar mass function to z = 0.1 from the r-band selected equatorial regions”, Wright, A.H., Robotham, A.S.G., and 25 colleagues, 2017, Monthly Notices of the Royal Astronomical Society, 470, 283 (C=128)

148. "Galaxy And Mass Assembly: the 1.4 GHz SFR indicator, SFR-Mstar relation and predictions for ASKAP-GAMA", Davies, L.J.M., Huynh, M.T., and 21 colleagues, 2017, Monthly Notices of the Royal Astronomical Society, 466, 2312 (C=71)

149. "Herschel -ATLAS: revealing dust build-up and decline across gas, dust and stellar mass selected samples - I. Scaling relations", De Vis, P., Dunne, L., and 20 colleagues, 2017, Monthly Notices of the Royal Astronomical Society, 464, 4680 (C=61)

150. "Using multi-band photometry and HI surveys to estimate the galactic baryonic mass function", Wright, A.H., 2017, Ph.D. Thesis, (C=0)

151. "G10/COSMOS: 38 band (far-UV to far-IR) panchromatic photometry using LAMBDAR", Andrews, S.K., Driver, S.P., and 4 colleagues, 2017, Monthly Notices of the Royal Astronomical Society, 464, 1569 (C=43)

152. "Galaxy And Mass Assembly (GAMA): detection of low-surface-brightness galaxies from SDSS data", Williams, R.P., Baldry, I.K., and 12 colleagues, 2016, Monthly Notices of the Royal Astronomical Society, 463, 2746 (C=23)

153. "The Herschel-ATLAS Data Release 1 - II. Multi-wavelength counterparts to submillimetre sources", Bourne, N., Dunne, L., and 28 colleagues, 2016, Monthly Notices of the Royal Astronomical Society, 462, 1714 (C=94)

154. "Galaxy And Mass Assembly (GAMA): M_star - R_e relations of z = 0 bulges, discs and spheroids", Lange, R., Moffett, A.J., and 26 colleagues, 2016, Monthly Notices of the Royal Astronomical Society, 462, 1470 (C=130)

155. "Measurements of Extragalactic Background Light from the Far UV to the Far IR from Deep Ground- and Space-based Galaxy Counts", Driver, S.P., Andrews, S.K., and 8 colleagues, 2016, The Astrophysical Journal, 827, 108 (C=147)

156. "Galaxy And Mass Assembly: accurate panchromatic photometry from optical priors using LAMBDAR", Wright, A.H., Robotham, A.S.G., and 29 colleagues, 2016, Monthly Notices of the Royal Astronomical Society, 460, 765 (C=163)

157. "Galaxy And Mass Assembly (GAMA): Improved emission lines measurements in four representative samples at 0.07 ¡z ¡ 0.3", Rodrigues, M., Foster, C., and 11 colleagues, 2016, Astronomy and Astrophysics, 590, A18 (C=5)
